THE DAILY AVALANCHE

An American newspaper, called the *Two Republics*, is published in the City of Mexico.

General Grant has issued an order abolishing the army clothing depot in New York city.

A new Episcopal Church is to be built in Boston, on the free church principle.

The Tallahassee *Floridian* complains that Florida has had "nearly three months of rain."

It is stated that Earl Mayo succeeds Lord Monck as Governor General of the Dominion of Canada next June.

Dr. Hall says that for the period of a month before marriage and a month after death men regard their wives as angels.

Eli Kimberly, of Guilford, Connecticut, was kicked by a rooster on Saturday last, and was so badly hurt that he is in danger of lockjaw. The frisky bird hit him with a spur in the knee.

A man in Arkans[illegible] let his children learn to read and writ[illegible] lost money by his own literary [illegible] endorsing a note.

Henry Cammers has sued the New York *Sunday News* for libel, assessing his damages at $50,000. The libel consists in the publication of a story, in which the plaintiff figures as a seducer and a murderer.

There is more malt manufactured in Hamilton, Ohio, than in any other place in the Union, and it has three hundred any twenty-five drinking saloons. It has a population of only fourteen thousand.

The Radical majority in Pennsylvania last year on the Congressional ticket, which was the true test of party strength, was only 11,000. The Democrats of the State have strong hopes of carrying the election.

Official returns of the Maine election, received at the office of the Secretary of State, from one hundred and forty towns, give Chamberlain 56,406, and Pillsbury 44,702; majority for Chamberlain, 11,704.

A train on the Northwestern railroad, in the western part of Iowa, was, on Saturday, delayed one hour and a quarter by grasshoppers, which covered the track so thick that the engine drivers slipped on the rail.

Dr. Behm has issued, at Gotha, the first of a series of geographical annuals. He estimates the population of the globe at thirteen thousand and fifty millions, and gives apparently good reasons for his opinion.

The St. Louis *Democrat* publishes a letter intended to show that Wilkes Booth is alive and that President Johnson assisted him out of the country. The attention of Stanton, Ashley, Holt, Butler & Co. is invited to this.

Among the last orders received at General Grant's headquarters from General Griffin is one abolishing all distinction, on account of race or color, with passengers on railroads and steamboats.

A number of emigrants are preparing to leave Bremen on the 1st of October for Charleston, and another vessel will follow in November or December. A proposition is on foot at Bremen to establish a line of steamers between that port and Charleston.

Department clerks in Washington are apprehensive that the President's proclamation commanding all Government officers to support the Constitution, is notice of impending removal for all who disagree with the Executive interpretation of that instrument.

A tract of land owned by Joseph Jones, of Warren county, North Carolina, which cost forty thousand dollars before the war, was sold for five thousand six hundred dollars by the United States Marshal last week. It is situated near Shockoe spring.

An Omaha dispatch says a wonderfully thick vein of gold has been discoved in Colorado, only five feet below the surface of the ground. There is great activity there in mining operations generally, and the yield of precious metals is expected to be very large.

At the dedication of the National Cemetery at Antietam, the other day, President Johnson made a brief speech, in the course of which, referring to the Union and rebel dead, he exclaimed: "Would to God we, of the living, could imitate their example, as they lie sleeping in peace in their tombs."

Mr. Bernard Avegno, a New Orleans broker, the other day bought $265,000 of eight per cent. Confederate bonds of 1861, and $300,000 of 1863, to fill an order from the North or from Europe; supposed to be for the same parties who advertised for such bonds in a Washington paper lately. It is supposed some speculative persons expect to be able to realize on that kind of paper, in some way, as an offset in the settlement of the Alabama claims.

A singular curiosity in Martin county, Indiana, is thus described: It stands alone in the dense forest, a gigantic stone jug about fifty feet in hight, about five feet in diameter at the base, eight feet midship, and two feet at the top, upon which rests a broad, flat rock about ten by fifteen feet, covered with bushes and wild ivy, and some three feet from the center stands a small tree. The rock is a great curiosity, and a view of it should never be lost by the traveler passing that way.

According to a correspondent, Wendell Phillips firmly believes that impeachment will follow immediately on the reassembling of Congress, and that President Johnson would not so persistently court such a course if not prepared and determined to resist it. He believes McClellan's reported recall has something to do with it. The late amnesty he considers treasonable, and an effort to build up another rebellion. He favors neither Chase nor Sheridan, but Thad. Stevens for President.

The Pomological Convention, which has been in session a number of days in St. Louis, adjourned on Friday. It will reassemble two years hence in Philadelphia. The display of standard fruits consisted of 680 dishes of grapes, 802 dishes of apples, 745 dishes of pears, and 212 dishes of peaches. The President stated that the quantity and quality of the fruits exceeded the most sanguine expectations of the society, and that the exhibition exceeded anything in the pomological line the world ever saw.

A dispatch from New York states that it has transpired that one great cause of the weakness of the Farmers' and Citizens' National Bank is the fact that the firms of O. M. Beach, Beach & Williams, Williams & Bro., and other Williams who were officers or directors of the bank, owe the institution over $300,000, and this debt having been contracted in direct violation of the provisions of the banking law, which would not itself warrant the appointment of a receiver, yet aggravates the case to a considerable extent. We expect that nearly all the rotten concerns called National Banks have more or less Wiliamses mixed up in them.

Facts and Fancies From Washington.

President Johnson on Registration.

The Result of the Maryland Election.

WASHINGTON, September 20.—A special to the New York *Times* gives the following views of the President on the situation South as recently expressed:

In conversation with certain politicians who called upon him for the purpose of urging him to reopen registration in the military districts of the South, he informed them he could not do so without certain risk of impeachment, and admitted the Reconstruction bill to confer on the District Military Commanders the sole control over registration. His only power of interference was the removal of commanders when they failed to execute the laws in accordance with his views of their legal construction. He admitted that the District Commanders were acting under the direct authority of Congress in the perormfance of a civil duty, and if he should attempt to assume power, as Commander-in-chief, to control the time of registration and elections, they would have the right to refuse to obey his orders, and would not be amenable to punishment for military insubordination if they did so. He stated that his recent promulgation of an amnesty proclamation threw upon Congress the onus of depriving legally qualified voters from registry and voting, and he hoped the Southern people would appreciate it in that light. If any pardoned persons, he continued, attempt to register and are refused, the courts are opened to them, and they can compel the military to allow them to register through the courts, if they do not do so. He concluded by saying that the fault of disfranchisement rested with Congress, as he claimed he had done all he could to restore them to their rights.

BALTIMORE, September 20.—Partial returns from most of the counties in the State foot up a majority of [illegible] for the new Constitution, in addition to the majority in this city, which was 10,384. Some counties are yet to be heard from, and it is supposed they will increase the majority.

CHARLESTON, September 20.—Registration closed in this city yesterday. The colored majority is 1801.

NEW YORK, September 20—[illegible] —Gold opened at [illegible], and is now 143¾. Cotton dull and nominal; uplands 24½c; Orleans 25½c.

LIVERPOOL, September 19.—Cotton has declined fully ⅛d. Sales to-day 12,000 bales. Uplands 9⅝d; Orleans 9⅝d. Breadstuffs firmer.

News from Venezuela states that Minister Wilson died at Caraccas on the 8th.

Royalty and the consequent jealousies growing out of it costs Europe a pretty penny. Seven hundred million dollars per annum is consumed by the military armaments.

Business was suspended on 'Change in Cincinnati, on the 18th, for half an hour, owing to a reception given to Major General Sheridan, who visited the Exchange, and was received with most enthusiastic demonstrations. The business of Cincinnati was very unnecessarily suspended on such premises as this.

M. D. Welkens, the chief gambler of the Wiesbaden hell, was, the other day, at Ems, waiting in the ante-room of the Prussian Minister for Muhler, to whom he was to apply for a prolongation of his gambling privileges. Suddenly he turned very pale, staggered a few steps forward, and sank dead to the floor. The physician said heart disease had killed him. After his death his hands tightly clutched his petition.

MEXICO.

Interesting Letter Written by Maximilian just Before his Death.

The following letter was written by Maximilian two days before his execution:

QUERETARO, PRISON OF LAS CAPUCHINAS,
June 17, 1867.

Dear Baron Lago, Minister of Austria to Mexico:

I am done with this world; my very last wishes are in regard only to my mortal remains, which will soon be freed from all pain, and in regard to those who must survive me. My physician, Dr. Basch, will have my body brought to Vera Cruz. He will be accompanied only by my two servants, Gull and Tudos.

I have ordered that my body be transported, without any pomp or solemnity, to Vera Cruz, and that on board the vessel that is to bring it to Europe no unusual ceremony take place. I have awaited death calmly, and I wish to be left in the same stillness while in my coffin.

You will take measures, my dear Baron, so that Dr. Basch and my two servants, who take my body in care, may accompany it to Europe on one of the two war vessels. Over there I wish to be buried by my poor wife.

If the news of my poor wife's death should not prove true, my body should be placed somewhere until the Empress rejoin me in death. Have the goodness to see that the necessary orders are forwarded to Captain Groeller.

Have also the goodness to take measures so that the widow of my faithful companion in arms, Miramon, can go to Europe on one of the war vessels. I reckon the more on the fulfilment of this request, as she is charged to remain with my mother at Vienna.

I again thank you from my heart for the trouble which you take on my account, and I remain your well wishing MAXIMILIAN, M. P.

Political Consistency.

[From the National Intelligencer, 17th.]

Politicians and party leaders should be blessed with good memories if they desire to preserve even the semblance of consistency in their records. For months previous to the issue of the President's amnesty proclamation, Horace Greeley was howling with stentorian fierceness for general amnesty. He urged it upon all occasions, in season and out of season; but what Greeley wanted was for his party friends to pass a law proclaiming general amnesty. So soon as the President issued his proclamation Mr. Greeley began most industriously to hunt up excuses for denouncing it.

This inconsistency, however, is not the only sudden sominersault of the *Tribune* man. In the *Tribune* of the 12th inst., Mr. Johnson is bitterly denounced on account of the rumor that General Steadman might be called to the charge of the War Department, and Steadman himself is lampooned without stint. The *Tribune* says:

The appointment of Steadman as Secretary of War, monstrous and ridiculous as it is intrinsically, is perfectly in keeping with Mr. Johnson's policy, which is always to choose the worst man in the country for a given position. If he could have found a successor to Mr. Stanton more obnoxious to the people, and less worthy of the office than Steadman, he would have inevitably chosen him. But that was impossible. Steadman is the last man in the United States who ought to be Secretary of War, etc.

Contrast this with the following letter, a copy of which was retained by the gentleman by whom it was delivered to the President:

[CONFIDENTIAL.]

OFFICE OF THE TRIBUNE,
NEW YORK, January 28, 1866.

DEAR SIR: The journals generally say that Mr. Stanton has tendered his resignation, and expects soon to leave the War Department.

Should this be the case, I venture to suggest as his successor, General James B. Steadman, of Ohio, one of the bravest and best of our Union volunteers, and a capable, devoted patriot. Trusting that you are aware of his merits,

I remain yours,
HORACE GREELEY.

HON. A. JOHNSON, President.

Was there ever exhibited a more ridiculous and humiliating instance of inconsistency. The letter of recommendation to the President was evidently an honest expression of opinion. The editorial is the mean suppression of honest convictions for the most paltry and despicable party purposes.

Signs of the Times.

The Knoxville *Free Press* of the 18th has the following:

In passing the office of a well known manufacturing firm yesterday, we noticed a rather extraordinary notice on the door in the shape of a query and answer:

NOTICE—Why in the h—l don't you stay in the office and attend to your business?
(Signed) A PURCHASER.

Liberal Advances—Supplies at Wholesale Prices

Commission for Selling Cotton $1 per Bale

To the Cotton Planters of West Tennessee, Alabama, Mississippi and Arkansas.

THE undersigned respectfully tenders his services as Agent for the sale of your cotton in this city, and for the purchase of your supplies. The unfortunate termination of the late war, which so materially affected the best interests of the South, has also had its effect upon the commission business of this city, as transacted between planter and merchant. You doubtless well remember with what [illegible], (previous to the war, amounting in some instances to annoyance), you were solicited for your business, at the rate of [illegible] per bale commission, free of drayage, and stored for twelve months without charge. Then (as will be again) the producer was the ruling element, and high rents, rich landlords and merchants, were the result of planters' patronage. No people or occupation have been more seriously prostrated than planters and planting, and none so much deserve to be fostered and aided in their unfortunate changed condition. How that aid, so much needed, has been meted out, you, I opine, too well know. Onerous government taxes in general, and a special tax upon your leading production, cotton; large profits you have had to pay upon supplies furnished; commission on sales, varying from [illegible] per bale; monthly storage at exhorbitant prices, and other expenses, as per reference to your account of sales, as a sum total, will leave you but little, if anything, upon which to rebuild your shattered fortunes, or to compete with the new order of affairs, free labor. When I withdrew from the cotton commission business in [illegible], private reasons then led me to believe that I would never engage in it again. The solicitations of many friends, that were [illegible] patrons, and a desire to promote the interest of the planting community, so far as my feeble efforts can do so, and the present want of gratitude exhibited to a community that in time past has tendered so materially to the prosperity of Memphis and its mercantile community, has determined me again to offer my services in the capacity as stated. The reduced stock of cotton in the United States and short supplies in the hands of New England manufacturers, has caused some advance in prices from the late [illegible]. Such was the case the past two seasons, and many planters have had cause to regret the acting upon this too common practice of holding and drawing upon their cotton. I would advise no planter to send forward his cotton unless he wished it sold upon the first active market; it can be held at home much cheaper than in Memphis. My charges for selling cotton will be one dollar per bale. Insurance effected in all cases, if not instructed to the contrary. Shall buy your supplies from wholesale houses, giving you the benefit of same. In short, by strict attention to your interest in all the departments of our business, I hope to merit a large share of patronage.

Very respectfully,
R. A. MOON

To the Business Men, Merchants and others of Memphis.

EDITORIAL

THE PEN IS MIGHTIER THAN THE SWORD.

SATURDAY, : : : : : SEPTEMBER 21, 1867

CÆSAR made his footprints on the sands of time, and THEAKER, the little popinjay who ruthlessly and vulgarly disturbed the tournament at Iuka, last week, is striving to stamp his ugly and unwashed hoofs upon the historic grounds of Corinth, Iuka and Shiloh. Some men are so anxious for notoriety that they had rather have an infamous fame than none at all. This feeling nerved the incendiary arm of the poor fool who fired the ancient temple, and the same despicable ambition seems to have inspired the little mock hero who rushed into the inclosure at Iuka on the 12th instant, whetting his teeth like the giant in the nursery tale—

> "Fee, faw, fum!
> I smell the blood, see the bones of a rebel,
> Dead or alive, I must have some!"

We have already given an account of the disgraceful conduct of this puffed-up, insolent piece of vanity. We are not surprised at the universal indignation which has been manifested throughout the country. We know nothing personally of THEAKER, but if it be true that tyrants are proverbially cowards, he is a craven hearted poltroon; for never did a small man, dressed up in a little brief authority, domineer over a defenceless and unoffending people with more insulting and arrogant insolence. We witnessed his conduct in all its littleness, and hung our head in very shame for a country that could use such a tool and such a flag in such a farce. In all countries and in all ages it has been the custom to honor the heroic dead. The victorious conquerors have always allowed this poor privilege to the vanquished. The Southern people have no costly national cemeteries, in which to hide the bleaching bones of their dead. But they claim the poor privilege of dropping a tear, planting a flower, and enclosing the remains of their slain comrades and relations. This was the object of the tournament, and it should not have been disturbed in its innocent simplicity and hallowed aims. But the hyena cares nothing for the sanctity of graves, and robbers some times burst open tombs to steal the silver upon the coffins, and why not permit a brutal and unfeeling satrap to disturb the solemnities of a people who were commemorating, not the cause they loved and lost, but the heroes who nobly fought and bravely died. General ORD, who has been made a little king in the Mississippi province, has won great popularity on account of his generous magnanimity, and we cannot believe that he will approve of the conduct of his subordinate. If he had been present he would certainly have been disgusted with the supercilious insolence of THEAKER, who cut up as many fantastic capers as a dog under the application of turpentine or a donkey in a hornet's nest. Dressed in his uniform, the fat, chubby, little fellow looked like a frog that some mischievious boy had loaded down by feeding it with shot. King CANUTE, standing upon the sea shore, never looked more grand or felt prouder of his robes. As THEAKER looked at the mourning women and children standing before him, and who were so soon to surrender to his prowess, he, no doubt, felt like a general looking down upon a city that he was about to conquer. As he whisked about, he seemed to be whispering to himself—

> "My good blade carves the casques of men;
> My tough lance thrusteth sure;
> My strength is as the strength of ten;
> Because my faith is pure."

With knitted brow and compressed look he ordered his men to move. On, right on, they rushed. There has not been such a scene since that awful day "when the King of France marched up the hill and then marched down again." The sight of so formidable a foe frightened the women and children, and they surrendered at discretion. The only serious incident that occurred was that of a little boy who lost the stick of candy which he was gnawing as the soldiers came marching by, and an old woman who, in her eagerness to get out of the way, accidentally dropped her petticoats. It was said that an old man lost his cob pipe in the charge, but we are happy to announce that it was subsequently recaptured. The taste of blood makes the wolf more ferocious and THEAKER'S achievement in that bloody and sanguinary contest only made him feel that he could drink up rebel blood as easily as the Ethiopian King believed he could lap up the waters of the sea, and at night he frantically rushed upon the ball room, where buxom swains and sweet lasses, bad boys and little misses were cozily hobnobbing and triumphantly planted the American flag in their midst! Perfumery and smelling bottles! what an excitement this charge created. The cry was not "on with the dance," but bully for THEAKER! ALEXANDER was great; HANNIBAL and SCIPIO AFRICANUS, once occupied a proud niche in the Phanthoen of fame, but the halo of glory which formerly surrounded their names will wax dim since the star of THEAKER has burst upon the country in all its sudden splendor. We suggest that a public dinner be given to THEAKER. Let a public meeting be held to do honor to the invincible THEAKER. Let a committee of old ladies, with prim night caps and broom sticks wait upon the irrepressible THEAKER. Bravery must be rewarded. Military genius must be encouraged. THEAKER! THEAKER! lucky man. Nature has again produced one of her favorite children—her wonderful prodigies. The battlefield has heretofore produced heroes and warriors, but THEAKER was made great by a joust at a tournament, and an exploit in a ball room. Oh, THEAKER!

SOME of the Radical papers are making a "dismal howl" over the President's Proclamation of pardon. In 1862 the Radical Congress passed a law, one section of which distinctly set forth that he should extend to any who had participated in rebellion, amnesty and pardon, with such exceptions as he might deem expedient. It was then contended that this was superfluous, as the Constitution conferred this prerogative. As the St. Louis *Republican* observes:

> The ablest lawyers, both in the House and the Senate, contended that the provision conferred upon the President no power whatever which he did not already possess. The Constitution invested him, exclusively, with unlimited power of pardon, except in cases of impeachment, prescribing no particular way in which he should exercise that power, leaving it entirely to his own discretion. He might pardon individually, one by one, upon application, or he might by proclamation declare pardon to all of a certain class who had committed offences against the United States.

In December last the section referred to was repealed, leaving the Constitutional prerogative of pardon in the hands of the President, just where it had been. Mr. TRUMBULL, in the Senate, said:

> The President's power to grant pardons and restore property will be just as complete after the passage of this bill repealing the thirteenth section of the act of 1862 as before. It is not in the power of Congress to deprive him of this prerogative.

Although it may be cause of regret that the final pardon had not been granted under the act of 1862, by their own showing it is not less valid since the repeal of the clause of the act relating thereto than it was before. WASHINGTON pardoned the whisky insurrectionists.

SAD AFFAIR.

A Young Boy Fatally Shoots Himself near Clarksville.

[From the Nashville Banner.]

A very sad accident occurred near Clarksville last Monday, of which we have the following particulars: Eddy Trice, eldest son of Mrs. Maria L. Trice, was returning from hunting on the day named, and, while in the act of getting over a fence, hit the hammer of his gun against a rail, discharging his piece with fatal effect. The entire load entering his left side near the breast, producing almost instant death.

Eddy was an exceedingly bright boy of about thirteen or fourteen years of age, and had already given promise of future usefulness.

The New York Academy of Medicine is actively engaged in sending aid to the yellow fever sufferers in the South.

William Howard, of the British Legation, left Washington for Boston Thursday to take charge of Sir Frederick Bruce's remains, which are being embalmed.

Spaulding alias Howard, the Chicago forgerer, was discharged by the police magistrate at Toronto, Thursday, the evidence being insufficient for his extradition.

Elder Kimball, in a harangue to the Saints of Salt Lake, recently said he had now seventy children, and that in fifty years the Kimball family would outnumber the present aggregate of Saints in Utah.

Scouts from the Indian country say the Cheyennes, Arapahoes, Comanches, and Kiowas have consolidated, and are now on the war path. Two thousand of them are encamped within thirty miles of Fort Dodge.

A City of Mexico correspondent says the popularity of the Juarist Government is on the increase, and declares that the annexation of Mexico to the United States is generally looked upon as a consummation most devoutly to be wished.

The Radicals are determined to make General Grant unbosom himself on the political situation, and have made another attempt in that direction. Not being quite satisfied with the result of their labors, they have sent for Washburne, of Illinois, to help them out, as he is reported to have more influence with the General than any other man in the country.

Sir Frederick Bruce arrived in Boston Wednesday night at nine o'clock from Harranganset, where he had been stopping for a few days. He was accompanied by Governor Gellen, of Colorado, and was quite ill from heart disease and much prostrated. Dr. Bigelow and Dr. Hodges were at once sent for, also Senator Sumner, who remained with him until two o'clock, when he died. Mayor Norcross, on hearing of the sad occurrence, issued orders that the flags on the city buildings be displayed at half mast. The bells of the several churches were tolled during the removal of the body from the city.

AUCTION.

The Buntyn Tract at Public Sale.

DESIROUS of carrying out as speedily as possible the provisions of the Will of G. Buntyn, deceased, in the disposal of his Homestead Tract, WE WILL OFFER AT PUBLIC SALE the remaining portion of the Tract, consisting of about

SEVENTY-FIVE LOTS,

Varying from two to ten acres in size, embracing with the field lands all the wood land lots on the Tract.

The high reputation for fine health which this locality enjoys, and the choice of easy and quick communication with the city by railway or dirt road, give to these lands advantages that must be apparent to the business men of Memphis, as a cheap, convenient and pleasant point at which to establish their family residence, combining so fully the advantages of town and country.

With the object of removing all difficulty in selling, we shall offer the property upon the following easy

TERMS—One-fourth cash, balance in 6, 12, 18 and 24 months' with interest. Warranty deeds given and deed of trust taken, waiving redemption.

EVERY LOT PUT UP WILL BE SOLD WITHOUT RESERVE. Plans of the lots may be obtained at the office of the Auctioneers; each lot being staked so as to be examined before the sale.

Sale will be upon the premises on WEDNESDAY, the 16th of October, 1867.

ROYSTER, TREZEVANT & CO.,

Public Sale OF 300 ACRES SUBURBAN LAND ON TEN YEARS' CREDIT.

I PROPOSE to sell at public sale, to the highest bidder on THURSDAY, the 14th of November, 1867, about three hundred acres Field and Forest Land, on my Homestead Tract, situated three miles east of Memphis, at the head of Union avenue, and lying between Central avenue and the Old State Line road. The most popular street pavements being now in process of construction in Memphis, good turnpikes or street railways on the roads leading from the city directly through this property, must soon follow, thereby affording the most reasonable probability of its great and rapid enhancement of value.

In stating the advantages of this property, I would specially refer to the HEALTH of the locality as having been always considered equal if not superior to that of any portion of the city environs; while the high character of the neighborhood, and the provision made for CHURCH AND SCHOOL PRIVILEGES, combine to render it one of the most desirable points for a suburban residence which the vicinity of Memphis affords.

The TITLE to this property has been vested in my father and myself for thirty years without interruption, and is free from any incumbrance.

THE SUBDIVISION OF THE GROUNDS will be in lots of about Five Acres, according to plans to be seen at the office of the Auctioneers. The avenues will be opened and the lots numbered so as to be readily examined before the day of sale.

BEING DETERMINED TO SELL, I shall offer the following liberal

TERMS:

One-tenth Cash, the balance in TEN ANNUAL INSALMENTS, with interest from date. Warranty Deeds given, and Trust Deeds taken, waiving redemption. These terms will make it very easy for any one to secure a pleasant Home, which must constantly increase in value and comfort, as the growth of Memphis continues.

FRENCH MEDICINES PREPARED BY GRIMAULT & COMPANY

Chemists to His Imperial Highness Prince Napoleon.

THESE different medicines represent the most recent medical discoveries, founded on the principles of chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the government. This fact must be a guarantee for the excellency of Messrs. GRIMAULT & CO.'S medicines.

Dr. Leras' (Doctor of Medicine) Liquid Phosphate of Iron.

The newest and most esteemed medicine in cases of CHLOROSIS, PAINS IN THE STOMACH, DIFFICULT DIGESTION, DISMENORRHEA, ANEMIA, GENERAL DEBILITY and POORNESS OF BLOOD. It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under any kind of debility whatsoever. It is the preservative of health *par excellence* in all warm and relaxing climates.

No More Cod Liver Oil—Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the hospitals of Paris. It is a perfect substitute for COD LIVER OIL, and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA, LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy [illegible] DISEASES OF THE SKIN. Further, it will be found to be of great benefit to young children subject to [illegible] OBSTRUCTION OF THE GLANDS.

Consumption Cured—Grimault's Syrup of [illegible] of Lime.

This new medicine is considered to be a sovereign remedy in cases of PHTHISIS [illegible] OF THE LUNGS. It promptly removes all the most serious symptoms. The cough is relie[illegible], and the patient is rapidly restored to health.

N. B.—Be sure to see that the signature of GRIMAULT & CO. is affixed [illegible] ble to imitations.

No More Difficult or Painful Digestion—Dr. [illegible]'s (Laurente [illegible] of the Paris Imperial Academy of Med[illegible] zenges.

This delicious preparation is always prescribed by the most reputed me[illegible] derangements of the digestive functions, such as GASTRITIS, GASTRALGIA, LONG AND [illegible] wind in the stomach and bowels, EMACIATION, JAUNDICE and COMPLAINTS OF THE LIV[illegible]

Nervous Headaches, Neuralgia, Diarrhea, Dys[illegible] ntly Cured by Grimault's Guarana.

This vegetable substance, which grows in the Brazils, has been employed since time immemorial to cure INFLAMMATION OF THE BOWELS. It has proved of late to be of the greatest service in cases of CHOLERA, as it is preventive and a cure in cases of Diarrhea.

Ferro Manganic Powder, prepared by Burin du Buisson, approved by the Academy of Medicine in Paris.

A small quantity of this powder in a glass of water is sufficient to obtain instantly an effervesing mineral and gaseous water to be drank at meals, either pure or mixed with wine.

It is a most valuable medicine for persons suffering from Chlorosis, Stomach Aches, and for Ladies suffering from Difficult or Suspended Menstruation. It is especially recommended to persons unable to digest the ordinary medicines containing iron.

This celebrated preparation has the advantage to prevent all tendency to constipation, and to contain a certain portion of manganese, considered by the most eminent medical men as indispensable in cases of treatment by ferruginous medicines.

No More Copaiba and Cubebs—Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other medicines have failed these preparations will always effect a cure. They insure rapid and extraordinary cure of severe, recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr. Ricord, and are found greatly superior to all hitherto known mineral remedies and copaiba and cubebs. The injection is used in recent and capsules in the more chronic cases.

The proprietors will exert themselves to enhance the comfort and pleasure of their visitors. The house is distant only a pleasant drive from the city, and will amply repay a visit. 2w

TO WHOM IN LIVERPOOL COTTON SHOULD BE CONSIGNED.—The brief announcement in another column that ex-Governor Isham G. Harris, who, amid the troublous times of revolution, maintained his personal honor unsullied, is now a commission merchant in Liverpool, England, and that shipments of cotton will be made to him by Cunningham, Wicks & Malone of this city, will be regarded with satisfaction by many Tennesseeans. The advances made on cotton shipped to him by this house are exceedingly liberal.

POLICE ARRANGEMENTS.—A case has just occurred which illustrates strikingly the difference in the effectiveness of the Metropolitan system of New York and the bastard political organization which goes by the same name here. Among the New York detectives is one named George Elder, who has been over twenty years connected with the police department. He is a fine looking gentleman, of accomplished manners, much general intelligence, remarkable shrewdness and a reputation that has never been impeached. Trained by the adroit Chief Matsell, he has been untiring in learning everything relating to that leading branch of crime, bank robberies; and since the establishment of the Metropolitan system, he has made that a speciality. Of course his knowledge of criminals makes him useful in many cases, but when bank robberies occur George Elder is always one of the officers who works up the case. The whole of our Memphis police, commissioners, clerks, sergeants and patrolmen, with all the thievish detectives who have run away thrown in, don't know as much relative to criminal life and police procedure as George Elder. Where they would detect crime by some complicity with stoolpigeons, Elder would accomplish it by intuitions drawn from his knowledge of the persons and habits of offenders. Elder's plan is that which meets the approval of the New York Commissioners. The other coincides with the views of the knaves and blockheads who control Memphis police arrangements. Under the Memphis police system no big rogue has ever been convicted of crime, and none will be caught unless one thief tells upon another. On the 11th of last July a forged check for $75 000 was paid by the City Bank of New York. Some days elapsed before its discovery. The bank clerk had forgotten the appearance of the person who drew the money, but was able to recall one feature that enabled Elder to decide with unerring certainty that the offender was John Livingstone, alias Lewis, alias Matthews, alias De Peyster, who has frequently figured in forgery cases for a large amount. Elder has been chasing Livingstone ever since, from New York to Buffalo, from thence to Chicago, and from thence to Kane county, Illinois, where he had purchased a farm of a thousand acres, and proposed enjoying rural felicity. Elder procured attachments on the property, and in spite of the legal trickery of a dozen Illinois lawyers, succeeded in taking Livingstone back to New York for trial. This case is alone sufficient to show the true principles of police action, which are knowledge, thorough surveillance, and no complicity with thieves.

A man named Pat Colyer was arrested yesterday for stealing a coop full of chickens from James Oliver, on Beale street.

The Eagle and Dixie Base Ball Clubs will play a match next week.

A warrant was issued yesterday for the arrest of John Wimber for stealing clothes.

There was only one arrest at the lower station house yesterday.

Tom Dillon was arrested yesterday for stealing a box of cigars from Mansfield & Co's. drug store.

A negro named Ned Polley was arrested yesterday for stealing a gold watch from a Mr. Hook. The negro should have been called hook.

The case of Mr. Milliken is to be decided in the United States Court this forenoon, and is of so much consequence that it will doubtless attract a crowd of auditors.

The family of Mr. J. Bledsoe, No. 21 Avery street, were awakened by burglars Thursday night. They attempted to enter the kitchen, but failed to do so, and made off.

A colored man named Alexander Robinson, who has been a porter in the Gayoso House for some years, fell into the river yesterday, while attempting to jump from one boat to another, and was drowned.

That courteous and enterprising gentleman, John H. Waggener, Esq., has returned from his trip to New York with a large stock of goods for gentlemen's wear, unsurpassed by any in the city.

There is a great deal of excitement over the boat race that comes off this afternoon. The popularity of the young gentlemen who are to row, the unusual sport of an aquatic race, and other circumstances, give to the affair a great deal of interest.

The theatrical season at the New Memphis Theater, will open with the celebrated Belle Boyd as the particular star of the occasion. She is reputed to be a clever actress, and her personal history will have made her an object of so much curiosity, that we may expect full houses during her engagement.

A colored loyal league having passed resolutions to sustain Mr. Griffith, the Metropolitan policeman, who is a candidate for the position of Justice of the Peace, his election is considered certain, in the light of Governor Brownlow's proclamation, that old Jim Davis must pick the poll clerks and judges, who shall allow only registered persons to vote.

A telegram was received last evening to say that the New Orleans cricketers and base ball players would be unable to come as was expected. The prevalence of yellow fever in New Orleans and the establishment of a quarantine are the obstacles. This will be greatly regretted by our Memphis boys, a large number of whom intended to go out to Grand Junction, to meet the young gentlemen from the Crescent City.

A negro named Bradley was yesterday held in two thousand dollar bonds to answer at the Criminal Court for killing a hog belonging to Mr. Simon. It seems that Bradley and another black took sacks and knives and went to the country, declaring that they had served in the army and were not going to work for any white man. Detected in the act of killing the hog, one escaped, but Bradley, after a smart chase, was captured.

A letter from the proprietor of the Island City Hotel, at Galveston, informs us that his house has been closed during the epidemic at that place, and has been thoroughly refitted for the coming season. The fever at Galveston greatly abated after the eleventh instant, and does not seem to have been a very fatal type as there have been ten thousand persons sick but only fifteen out of the entire population have died.

It is with deep regret that we hear of the illness of Mrs. Gustavus Brooke, who as Miss Avonia Jones has long been a decided favorite with the lovers of the drama in our city. Mrs. Brooke has returned from her European tour crowned with new laurels, but with shattered health and a constitution so enfeebled by disease that she writes sadly: "All my engagements must be given up, and it will be at least a year before I can resume my profession, if it is Heaven's will I should recover."

The chewing gum that is so popular among girls, is made of gum arabic, gum tragacinth, resin and coarse fat. Most of this gum is made at Podunk, Massachusetts. Any kind of fat, even that of dead dogs, is used in the manufacture, and when all the ingredients are placed in boiling kettles, a small quantity of the liquid from water closets is put in to whiten the gum. When this fact is known, girls have a perfect right to chew gum if they want to. It is all a matter of taste. One establishment in this city sells hundreds of dollars worth of gum every month.

On next Tuesday night the Rev. Guilford Jones will lecture in the Tabernacle for the benefit of the "Fanny Thurston" fund. His subject will be the Pre-Adamite History of the World. This will probably be an interesting resume of much that can be known from the fossils found in palaeozoic rocks. The strange forms, the curious adaptation of organic life to circumstances, the world's gradual development, and the accord of scientific facts with Bible history, will furnish a wide field for the exercise of the talented lecturer's descriptive powers. It will be one chapter of Pre-Adamite History, but a chapter replete with wonders, a chapter that may have had many counterparts in the fluctuations to which the earth's crust has been subjected, making metamorphic those rocks which have once been fossiliferous, and from the elements of crystalline rocks forming those which are now fossiliferous.

The attention of our municipal authorities has been a number of times directed by the AVALANCHE to the alleged superiority of cement to every other kind of pavement, and reference made to its use in Paducah. Mr. Lowden proffered to put down such cement pavement at one-third the cost of the Nicolson, and citizens who visited Paducah or resided there, declared to the City Fathers that after twelve years use this cement pavement was as good as on the first day it was put down. Very recently Mayor Lofland having visited Paducah, called officially the attention of the City Fathers to the fitness of this pavement for those streets that had not been contracted for either the Nicolson or stone pavement, and he suggested that a committee should visit Paducah to examine its pavement. Nothing has been done about it. While our authorities are thus tardy, Cincinnati is putting down a pavement not of natural cement, like that found at Paducah, but of an artificial cement which, when down, is called the Boulevard pavement. It is made of ashphaltum, oxide of iron and ashes. A foundation of broken stone is put down, then a coating of finely broken cinders, and upon this a coating of cement one, two, or three inches thick is placed. The cost is two dollars per square yard for street pavement, for sidewalks seventy-five cents per square yard. The same kind of pavement is now extensively used in Paris. A Cincinnati paper says of it: "The appearance of the pavement when finished is that of a nearly smooth, sanded surface, of a hard, but not brittle character. It can be cut, but will not crack or break under the stoutest blows. A hard piece of limestone was broken with an ax on it in presence of the party, and it left no trace of the concussion. Yet it is said, that for the purpose of taking it up it may be cut in sheets or blocks and removed, and afterward replaced and cemented as firmly as ever. It can also be repaired similarly, by cutting out a small portion and putting in a new piece. The appearance of the material is that of a darkish, coarse cement. It is waterproof entirely."

THE NEW MEMPHIS THEATER.—The theater wields a great power over the popular mind. Its influence may be immense, either for good or evil. A dramatic scene that inspires virtuous sentiments, cannot certainly be more objectionable than a picture or written description of the same dramatic incident upon which the play is based. An actor whose performance is elevating in its character and true, who identifies himself with it and thus holds the mirror up to nature, awakens pure and noble emotions. Such are the real stars of the theatrical firmament. Who that saw Garrick or Siddons—who that saw Keane, or Macready, or Booth, but will for life cherish the golden memory. The great actor who performs in pieces of an immoral tendency simply prostitutes his talents to unworthy ends. Unfortunately such prostitution finds favor with the public, and actors are not above catering to low sentiments. Managers have to do so in order to pay expenses. That style of stars profanely called bowlegged ones have less intelectual merit than others, but attract a great deal more of popular attention and favor. They are generally vivacious, pretty and popular. High art may be remembered a life time, but these pert, plump, pleasing pets, by the display of well formed legs, neat ankles, and finely formed busts fill the theater, and by the furore they create show what nonsense it is for managers to depend on fine acting alone for theatrical success. Good reading is nothing; fine conception of character nothing; vivid delineation of a part nothing; it is sensuous characters that win the brighest prizes. The New Memphis Theater opens next Monday evening, and Mr. Thompson has done wisely in not depending upon high art alone. He will, during the ensuing season, produce before our Memphis audience nearly all the best actors in the United States. Interposed among these will be those stars who depend on bare legs and beauty. To support these stars, Mr. Thompson has been at great pains to secure a stock company of more than ordinary histrionic ability. With a poor stock company the acting of the best star drags heavily. The star has half a dozen characters which form his or her *repertoire*. But stock actors have to appear in new characters when each new star comes along, and have to creditably perform widely different *roles*. The leading lady has to appear as all sorts of fine women; the juvenile and walking lady, as a variety of interesting girls; the chambermaid has to be all sorts of servants; the leading gentleman has to be hero, villain, kindly grandfather, respectable uncle, affectionate husband or devoted lover, as the case may be; the juvenile gentleman has to be collegian, army officer, man about town, clerk and lover; the old man has to perform every species of senility, and the comedian to undertake all sorts of fun. To do such things well requires more ability, more labor a great deal than to be a star, and we are pleased to hear that Mr. Thompson, in Mesdames Allen and Mitchell; Mademoiselles Fannie Edrian and Fanny Pierson; Messrs. Roach, Mitchell, Ellerton and France, has secured creditable and laborious performers, who will faithfully render their parts, and not by ill timed wit and stage gags disgust their auditors.

THE FOREIGN CROPS.

The result of the foreign harvests is a consideration which very materially affects the price of our own agricultural products. For some time there has been a halting among our great grain dealers at the seaboard, who have thought it unsafe to buy produce until it became apparent what amount might be required by Great Britain. We have now reached a period when the result of the crops in Europe may be pretty accurately estimated. Certainly, our worst fears are not realized. The grain countries of the Continent appear to have had at least an average yield, taking all the countries into account; and the harvest of Great Britain has turned out much better than was at one time feared. An intelligent London correspondent of a New York journal writes on the 24th August, as follows:

The progress of harvest operations during the week has been very satisfactory. A large quantity of produce has now been harvested, and the result cannot by any means be considered unfavorable. Moderate supplies have already been sent to market, and, although as regards quality, there is a falling off as compared with 1863 and 1864, yet a good useful sample of wheat has been raised, and the greater proportion of the produce harvested has been secured in good condition. During the present week prices have declined to the extent of 1s@2s ₱ quarter.

The decline of 1s@2s ₱ quarter in the price of wheat, within a few days, sufficiently indicates that the result of the harvest has exceeded expectations.

It now remains to be seen what will be the effect of these improved prospects, as to supply, upon our own markets. As yet, prices of breadstuffs have not declined at all in proportion to what has been expected from the great abundance or our supplies of cereals.

RIVER NEWS.

AVALANCHE OFFICE,
SATURDAY, September 21.

BUSINESS—WEATHER—RIVERS.

Yesterday was a dry and warm day, but not so oppressively hot as the one preceding. The rivers are all falling except White river, which is on a stand, with four and a half feet to Duvall's Bluff and three feet to Jacksonport. The channel to this latter point is very crooked and narrow, full of stumps and snags—our friend Dill to the contrary notwithstanding. The upper rivers are dead low. The Ohio has not been benefitted below Louisville by the Kanawha rise, though the rise at Cincinnati amounted to three or four inches. The pilot of the Adam Jacobs report four and a half feet at Phillips', but the channel is cutting out rapidly.

ARRIVALS.

MISCELLANEOUS.

Business on the levee, yesterday, was very good, but not as active as usual on Friday, owing to the detention of up river packets.

The Southerner and Continental, we learn, have succeeded in getting over Phillips' bar, bound up. Of the other boats upward bound, the City of Alton, Lady Gay and Henry Ames were below the bar and unable to cross, when the Jacobs passed down. The Belle St. Louis had succeeded in getting over, and was taking on her freight. She will no doubt be here to-night. The Stonewall had also got over the bar, but the Virginia was still above and hard aground. The Champion is reported there, together with the Hero and Coosa. They get from $100 to $150 per hour for lightering. We learn also that Captain Bowman will remain there with the Mollie Hambleton for a few days, to see if he can't get some of the chicken pie.

The Natoma left for Mariana yesterday evening. She is not making a fortune at either passengers or freight.

The fine packet Rowena leaves to-day for all points on White river. Captain Davis commands, and Messrs. Kidder, Harvy and Sharp are clerks.

The Des Arc leaves to-day at five p.m., for Vicksburg. Captain John D. Elliott is in command, Wm. H. Miller and Cad Hanks are secretaries.

The Ozark with Jimmy Thompson and Sam Wood in the office is advertised for the Arkansas river to-day.

The Gleaner, with Captain John Fenwick in command, will leave to-day for Pine Bluff and way points. No better boat floats in the Arkansas than the Gleaner, and Captain John is one of the safest officers we know of. Her office is controlled by perfect gentlemen, and all who travel on her will indorse our sentiments. Try the Gleaner.

Captain Dave Hukill returned yesterday from St. Louis.

Captain J. J. Waman has been ill for a few days, but is again about.

Captain King, of the Gleaner, was out yesterday for the first time since his illness.

The J. D. Perry is undergoing a course of paint, etc., preparatory to entering the White river and New Orleans trade.

The Mary Swan was sold yesterday at chancery sale to W. H. Kellogg, who bought her in for Low Brothers, at $4,550, five per cent. cash and the balance in two, four and six months.

There is no little interest felt in the regatta which comes off to-day. Commodore Stiles, formerly of the Confederate navy (so called), has been putting his crew through a regular course of training. For several weeks the gentlemen composing the clubs of this city have eaten nothing but lean mutton and beef, careful always to avoid fat; had no pepper, spices or any condiments in their food, only a little salt; abjured vinegar and all other acids, as well as tobacco in every form; drank little water at their meals or at any other time, and no strong liquors, except occasionally a little Scotch ale or claret; took exercise systematically, with an especial reference to increasing their muscular power and improving their "wind;" and after every exercise were persistently "rubbed down." This discipline has attained such complete results that they are able to row several miles against the swift current in our river without the quickening of a pulse. We look for a grand time to-day.

Alick Robinson, a negro porter of the Gayoso House, was drowned yesterday in attempting to jump aboard the Adam Jacobs. He was well known, and at one time possessed the esteem and confidence of many of our old citizens. Recently he has followed after strange Gods, and was a leading spirit in the Radical councils of this city. He left some property, which will be scrambled after, no doubt, by his white and black brethren. Five hundred dollars reward is offered for the recovery of the body by his afflicted wife.

The towboat Dexter, recently built at Dubuque, by Ben Campbell, has been sold with her two barges to Charley Merry, of Dunleith, Illinois.

Captain D. H. Silver closed a trade at St. Louis on Wednesday with Captain Hancock, of the Illinois River Packet company, by which the steamer Sam Gaty and $9,000 are given for the steamer Peoria City. Captain Silver will probably place the Peoria City in the Vicksburg trade in connection with the Mary McDonald. The Sam Gaty will continue in the Omaha trade.

THE TENNESSEE RIVER.—During the last session of Congress an appropriation of ten thousand dollars was made for the purpose of providing for a thorough and reliable survey of the Tennessee river from Chattanooga to its mouth. A preliminary survey was made last Tuesday, by several gentlemen, under the charge of Major General Weitzel. The principal obstructions near Chattanooga were the Ross Tow Head, and Burris' bar, opposite the center of Williams' island, and about fifteen miles from Chattanooga by river, both of which are low water obstructions. Next come the Tumbling Shoals, so called because of the great fall in the water at this point, about a mile and a half above the Suck. The characteristics of the Suck are well known, and need no description. Below the Suck is the Pot, where the water whirls around at high stages of the river in eddies, and presents the appearance of a boiling pot. Below this is the skillet, a low water obstruction, and below this the Frying Pan, which is similar to the Pot, and only troublesome in high water.

Upon the return of the party General Weitzel expressed the opinion that the removal of the obstructions will require far less labor and therefore a much smaller expenditure of money than has been previously supposed.

The following are among the gentlemen deputised to make the survey, and they commenced operations yesterday: Colonel Wm. E. Gaw, Superintendent; Fred. Wallace, Assistant Superintendent; Edward McDermott, Topographer; Duncan Phillips, Civil Engineer; —— Homan, Civil Engineer; T. J. Woodward, Pilot.

It is expected that some three or four months will be consumed in making the survey.

Traveling on the river, says the St. Louis *Republican*, is one of the uncertainties of this uncertain world. With rapids on either side, boats from St. Louis to St. Paul find it difficult to make good time. Chase & Co.'s boats and barges on Duck Creek chain are found to add greatly to the difficulty in crossing the upper rapids, and the erection in the channel of a coffer dam makes navigation rather dangerous, as boats will be forced entirely out of channel.

The Ohio, at Lancaster, has not been affected by the Kanawha rise. It has, says the *Democrat* now fallen to a lower stage than for thirteen or fourteen years, and navigation along the lower Ohio is almost suspended. At the bar at the foot of the falls, cut from Portland the ferry boat pilots report but barely twenty-five inches, and hard work to rub over.

The H. M. Shreve, Captain Carter, will leave for Vicksburg to-day at five p.m. She is a swift and safe packet.

The Robicon will be up this evening. She goes to Cairo and St. Louis. Captain Blake is master and Alf. Grisson is clerk.

The bar at the foot of the falls at Louisville is now one of the most serious impediments to navigation, and New Albany or West Louisville might be considered the head of navigation.

The Empire has laid up at Louisville, her owners not being able to take out any freight on the present stage of water. Her freight engagements were turned over to the R. C. Gray.

Among the last orders received at General Grant's headquarters from General Griffin is one abolishing all distinction, on account of race or color, with passengers on railroads and steamboats.

TEXAS TONIC SYRUP

A Vegetable Compound for the Rapid and Never Failing Cure of

CHILLS & FEVER OR FEVER & AGUE

Every Poison has its Antidote—Every Disease has its Cure!

THE people of the Mississippi Valley, and throughout the entire South, have long felt the necessity for, and want of, a SAFE, CERTAIN AND RELIABLE REMEDY, as a substitute for Quinine, Strychnine, and other poisonous Drugs, for the cure of Fever and Ague, or Chills and Fever. We claim, and the results will show, and bear ample testimony to every unprejudiced mind, that the Texas Tonic Syrup has supplied this want and accomplished this purpose. Its Tonic, Alterative and Antiseptic qualities are such that none can possibly be disappointed in its effects. Upon its own merits, therefore is it sustained. A single trial is all that is needed to stamp this remedy as the greatest specific of the age.

The ingredients of which this Medicine is composed are simple productions of nature abounding upon certain streams in the State of Texas, and were ever used by the Aborigines of that State as a specific for Fevers of all kinds, and especially Fever and Ague, which they never failed to cure.

A celebrated physician, acquainted with these facts, has furnished us his theory upon this important subject, and hence the product properly named TEXAS TONIC SYRUP, which we now offer to the public as a specific and POSITIVE cure for Fever and Ague, or Chills and Fever, no matter of how long standing.

Having had indubitable evidence of its prompt and certain effects from the testimony of a multitude of respectable citizens, we do not hesitate to recommend this preparation in all cases of Fever and Ague and Chills and Fever; indeed, from the facts in our possession of its intrinsic value, it would not be too much for us to state that when the directions are strictly complied with we warrant a cure in every case where it is tried. It is pleasant to the taste and the cheapest Medicine in the world. Therefore, in truth, it may be declared the day is not far distant when it must be appreciated and used in every household where Fever and Ague or Chills and Fever is found to exist.

DR. C. WILLIAMS'

Compound Pulmonic Balsam of Wild Cherry and Wood Naptha,

FOR THE COMPLETE CURE OF

Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints, tending to Consumption.

READ! READ! READ!

THIS justly celebrated preparation is recommended by some of the most learned and intelligent physicians in the country, and will be found far superior to any remedy for the cure of all diseases of the respiratory organs. All persons who have used it for Asthma, Cough, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Pain, Soreness of the Breast, Difficulty of Breathing, and every other disease of the Breast and Lungs, attest to its superior efficacy in the most unqualified terms.

BRONCHITIS, a disease which is annually sweeping thousands to a premature grave, under the mistaken name of Consumption, is promptly relieved and cured by it. The usual symptoms of this disease, (Bronchitis) are Cough, Difficulty of Breathing, Hoarseness, Soreness of the Throat or Lungs, Asthma, Hectic Fever, accompanied with spitting of phlegm or matter, and sometimes blood. It is an inflammation of the membrane which lines the inside of the whole of the wind tubes or air vessels which run through every part of the Lungs. This Pulmonic Balsam immediately suppresses the Cough and Pain, subdues the inflammation and fever, removes the difficulty of breathing, by producing a free and easy expectoration so that a cure is soon effected. It always cures in ASTHMA. Two or three doses will cure the CROUP or HIVES of children in a few minutes, and it is remarkable how prompt it is in subduing the violence of HOOPING COUGH, and effecting a speedy cure, and many who have been given up by their physicians as incurable in Consumption, have been restored to perfect health by it.

The Death of an Illustrious Negro King.

From the London Times, September 3d.]

From the advices by the French mail from the West coast of Africa we learn of the death of the warrior chief Mabba, who has for the last six years been a fearful scourge among the native tribes inhabiting the countries bordering on the English and French territories in the Senogambia. Mabba, in 1861 was a chief of but little importance in the kingdom of Baddiboo. He was, however, a staunch Mahomedan, and watching his opportunity in that year, he rebelled against his pagan king, put him to death and assumed the supreme rule of the country. With fire and sword he established the religion of Islam, killing all those who would not shave their heads and swear on the Koran their adherance to his faith. The fanatical warrior, elated by a success he had obtained over his negro brethern, in June 1866, sent an invading army into the British territory on the Gambia, but he was repulsed and sustained great losses from the able strategy of the Governor, Colonel d'Arcy. Mabba, however, then thought he would attack the French, and in December of the same year, with four thousand warriors, surrounded a party of three hundred Europeon French troops and massacred them all, with the exception of nine, who alone escaped to tell the sad tale. The sacrifices and customs of the King of Dahomey are but a trifle compared to the slaughter and misery this fanatic Mabba has, by his ruthless policy, inflicted on the unoffending negro races.

This mail, however, brings the news that he has been captured in battle by Jolliffe, the King of Sein, and his head and hands sent exultingly by that King as a trophy of successful war to the Governor of the French settlements on the Senegal. It has been computed that no less than twenty thousand human beings have been killed or have died through starvation, or have been abducted and sold into slavery, by this monster Mabba under the cloak of religion, so that now his career is ended it is hoped that peace and prosperity may be restored to these unhappy countries.

Divorce Made Easy.

The New York *Times* is showing the various devices that are resorted to in New York, as elsewhere, to make divorce easy. After quoting from the advertising columns of some of the city journals, the case of certain legal gentlemen who propose to procure absolute divorces from the courts of several States without publicity or fee till successful, the editor says:

Very many of these divorce suits are conducted in a manner so exceedingly confidential, that one of the parties most interested is not informed of the proceedings at all, until astounded by the presentation of the decree. We are cognizant of a case, wherein an estimable lady, innocent of all wrong and ignorant even of any dissatisfaction on the part of her husband, parted with him affectionately at the steamboat dock as she started on a journey to see some friends; some hours after, in the privacy of her stateroom, she found leisure to examine a paper her husband had handed her at the last minute, and discovered it to be a copy of a decree of divorce rendered by an Illinois Judge. Before the steamboat had been six hours gone, her late husband had married another woman. Numbers of these confidential divorces are obtained for unworthy purposes by the most rascally means.

THE DISCOVERY OF THE AGE

NO material which has ever been discovered has effected greater benefits in the household economy than

McGIMSEY'S MAGIC SOAP.

It is a labor saving invention as well as an invaluable remedy in scurvy, scald head, eruptions of the skin and piles. Dandruff is removed from the head, the teeth whitened and cleansed, plate and jewelry cleaned, stains effectually removed from carpets, furniture, clothes, paint, varnish or marble with the greatest facility and without injury to the material. It is a great saving of time and labor in washing clothes. It is the only known soap which will wash flannels with the ease of cotton or linen without fulling or shrinking. All these important objects can be effected without injury to the skin or the most delicate fabric. It possesses no deleterious qualities whatever. The world is challenged to produce a soap which possesses so many valuable properties, and which is so innocuous and safe. It is a home invention, and defies competition in any part of the world. It has become a necessity in Memphis, and its use is rapidly spreading throughout the South, and eventually will extend over the Yankee States, North and South America, Europe, Asia, Africa and Oceanica. Manufactured solely by C. P. McGIMSEY, Memphis, Tenn., and can soon be found at any respectable family grocery or drug store. Our Southern Widows and Orphans

IT is the duty of every true Southern person to cast in a mite to the support of those who have been left in a dependent condition by the loss of a dear husband or an affectionate father, who laid down their lives in the defense of our once glorious but now LOST CAUSE!

And being impressed with a sense of this duty, I have determined to set apart, say one-fourth of my net income for that purpose; and as my business is the publication and sale of the first classed Southern Literature, for which I have exclusive control of the States of Arkansas and Tennessee, and the counties of Washington, Holmes, Atala, Winston and Noxubee, and all counties north of the same in the State of Mississippi, and assured that the good people of said section are willing and will assist me in my donation, and to this end I wish a gentleman or lady in every civil district, within the above territory, who feels an interest in the needy, and who will give a few weeks time, energy and influence to the business, to canvass their respective districts for our standard Southern Historical Works. For such services we will allow a liberal commission on sales.

We wish the very best of citizens, and those who can and will take an active interest in our enterprise, to whom we refer to the following names, should they desire to make inquiries.

WE will at once rebuild our warehouse, and will have it completed by the 15th of September, but by the first day of that month we will be ready to receive goods on store.

The sheds will be divided into fire proof compartments by brick walls, and covered with tin. Those who have patronized us for the last two seasons, and those who may have proposed to do so the approaching one, may rest assured we will be ready for them.

We design establishing a Cotton Compress in connection with our warehouse, upon an adjacent lot, which will be ready by the 1st of October or sooner. The proximity of our establishment to the river renders the handling of cotton so convenient that we can transfer cotton for shipment by river free of drayage. The advantage of this position is equal to one drayage on all cotton sent for compression from other warehouses, while on all cotton in our warehouse for compression there can be two drayages saved, since it would be as easy for us to transfer it from our shed to the Compress as to turn it out in the ordinary way for transfer by drays.

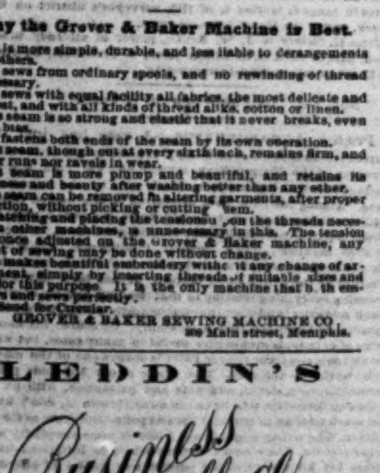
GROVER & BAKER'S

CELEBRATED

ELASTIC STITCH & LOCK STITCH



SEWING MACHINES

Why the Grover & Baker Machine is Best.

1. It is more simple, durable, and less liable to derangements than others.
2. It sews from ordinary spools, and no rewinding of thread is necessary.
3. It sews with equal facility all fabrics, the most delicate and heaviest, and with all kinds of thread alike, cotton or linen.
4. Its seam is so strong and elastic that it never breaks, even on the bias.
5. It fastens both ends of the seam by its own operation.
6. Its seam, though cut at every sixth inch, remains firm, and neither runs nor ravels in wear.
7. Its seam is more plump and beautiful, and retains its plumpness and beauty after washing better than any other.
8. Its seam can be removed in altering garments, after proper instruction, without picking or cutting them.
9. Watching and placing the tension on the threads necessary in other machines, is unnecessary in this. The tension being once adjusted on the Grover & Baker machine, any amount of sewing may be done without change.
10. It makes beautiful embroidery without any change of arrangement, simply by inserting threads of suitable sizes and colors for this purpose. It is the only machine that both embroiders and sews perfectly.
